Product description

A multifunctional bathroom pillar will allow you to store towels and cleaning products, but that's not all. Thanks to the regulation of shelves (3 small and 5 large), it can accommodate tall household accessories, such as a mop with a bucket or an ironing board. The front and body of the cabinet are made of varnished chipboard. The door of the pillar is equipped with a "soft close". Separately, you can buy black and silver handles and decorative legs. * The animation contains elements that are not included in the presented product.
