

SET B850: SHOWER ENCLOSURE SQUARE LARGA HINGE 80X80X195 LEFT CHROME TRANSPARENT GLASS

COLLECTION [LARGA, LARGA SHOWER](#)

PRODUCT CODE:

S601-215

Product description

Shower enclosure LARGA has been crafted from durable 6 mm thick tempered glass, ensuring structural stability and safety of using. The glass is equipped with a protective hydrophobic coating CleanPro, effectively preventing the buildup of limescale and impurities. This feature facilitates easier maintenance of the shower enclosure, keeping it clean and pristine. The metal hinge flush with the glass pane on the inside of the shower enclosure has the function of lifting the door, thanks to which the life of the gaskets is extended. The innovative hinge mechanism allows the door to stop when it opens at an angle of 90°, providing protection against accidental impacts. Double-sided handles made of high-quality metal have a knurled finish, combining style with functionality and durability. The shower enclosure is equipped with a functional wall side profile that adjusts to wall unevenness up to 15 mm. Chrome details with a subtly shiny finish emphasize the modernity and minimalist form of the enclosure. Magnetic gaskets increase the convenience of use. The high quality of the product is confirmed by a long-term warranty. A wide range of linear drains and shower trays in various colors and heights is available to be combined with the shower enclosure, which allows for freedom of configuration. Square corner shower enclosure 195 cm high, with 80 cm wide door and 80 cm wide wall, left version, with transparent glass.

Technical data

Availability of spare parts (years)	yes (min 3 year since finishing the production)
Cleanpro coating	yes
Depth	80 cm
Glass colour	transparent
Gross weight	56 kg
Height	195 cm
Intended for shower tray	yes
